Running TaobaoNow is very satisfying. Not only because the business is growing, but more because my customers are happy with our service. As a principle, I never ask any customer to write testimonials, as I find such testimonials forceful, not to mention the pressure you might feel if I ask you to write something good about us.

But I received so many compliments, that I find it hard not to boast just a little. These compliments are so heartfelt, as they were written in the responses while we were doing the ordering. If you are the owner of any particular quote, you can comment on this article. No need to write anything else, as I wouldn't want you to go out your way to say good things about us, a simple acknowledgment will be more than enough. If you want your quote to be removed, please let me know.

Even though you don't sleep, Charles, I like you, you are very thorough and always get me more info than I could ask for. You go the extra mile, and once I get my hands on these babies I'm buying, I'll be sure to send like-minded overseas buyers your way for similar products.

I am speechless as to this stage of your excellent service. You've set the bar up high and surpassed it, I feel lucky guessing delivery like yours is hard to find in this business.
